**Subject:** Blue Ridge Landfill Waste Removal

Agency Interest No. 998  
Agreed Order #: DWM 160048

There is only one solution to this problem and that is to have the waste removed!

The company that brought the waste should be held accountable to the fullest extent and they should be the ones responsible for removing the waste if they have to do it personally, themselves, by hand. They should be punished by the fullest extent of the law and made an example out of, so that other people/companies will have second thoughts to dumping waste illegally.
