To whom it may concern,
My main concern is safety for our children and grandchildren. Nothing may happen in my lifetime, but I know the landfill is not equipped to contain this radioactive material. I do not believe the landfill will adequately monitor the situation.

The TENORN was dumped here illegally and needs to be REMOVED!

I ask that you consider this matter as if it was located across from your child's school or close to your property.

Thank you for your time and consideration.
