Dear Mr. Cummins  
Below is my response in the attachment  
Robin Reed

Agreed order DVM-160048

Feb. 8, 2018

Jeff Cummins

Director of Enforcement

Dear Mr. Cummins

I am writing to you in regards to the CAP (Corrective Action Plan) proposed by CHFS and EEC. According to State law the TENORM that was disposed of in Estill County at the (BRL) Blue Ridge Landfill was dumped illegally. Since I am a citizen of Estill County I would like to support Option # 2 of the C.A.P. and have the TENORM completely removed and transported to a landfill that is built to handle radioactive waste.

I would also like to see the BRL pay to have the Schools across the road from said Landfill rebuilt in another area of the county to reduce further exposure to toxics and radionuclides in the future.

Sincerely,

Robin Reed, member CCEC
