Dear Sir,

My comments on the proposed Blue Ridge Landfill Corrective Action Plan dated 17 Nov 2017 from Advanced Disposal Services Blue Ridge Landfill, Inc. that concerns the 'Technologically Enhanced Naturally Occurring Radioactive Material' (TENORM) that was illegally dumped in Estill County, KY.:

My family has lived in Estill County, Kentucky for over 226 years, well before Kentucky became a state or Estill County a county, so to me, there is no other Corrective Action Plan than for there to be a TOTAL AND COMPLETE REMOVAL of ALL ILLEGAL TENORM (Option #2). Therefore, any proposed Corrective Action Plan that fails to remove the TENORM is **NOT ACCEPTABLE** to me in any form or function.
