I live at 941 dry branch rd and the dump is at my back yard .no one has come to talk to us on this rd. and it not clear what is going on here . but the county is pointing fingers. so what need to be clear up is what was actual dump here and show the people the actual dump. or is this a (lie) to bankruptcy for some ? this is what we are hearing ,bankruptcy we (lose) .What about the safety issue and what about if there is a health issue.We don' feel safe to drink the water.Because nobody has come to Dry Branch Road to talk about this or informed us of where they are having meetings to discuss this problems that is happening with this dump site.If you would like to set up a time to discuss this issue just let me know.
