Subject: RCRA Question

Hi –

When I was at KDEP this week, Jeri Higginbotham, who is a risk assessor, wanted to find a contact to talk with in RCRA. She had a question about a company that was taking brine from oil and gas processors and precipitating out the solids. Although she thought the oil and gas processors were exempt from RCRA, she was wondering whether the sludges from the other company were exempt.

Is there a name I can give her of who she can talk with about it?

Thanks,
